CORK IRELAND HAS BAD FIRE; MANY CASUALTIES

Several Lives Are Lost and
Much Destruction of
Property.

(By the Associated Press)
LONDON, Dec. 12.—British regulars stood guard today over ruins left by the fire, which Saturday night and yesterday swept virtually unchecked through the city of Cork, Ireland. Estimates on the loss ran as high as fifteen million dollars. Hours of terror were spent by the city of Cork Saturday night. It is said several lives were lost and dispatches declared that two brothers, named Delaney, were called from their homes and shot, one of them fatally. Dispatches reaching London today say that Cork was quiet and that orders had been given the regular soldiers to shoot looters on sight. Damaged premises have been plundered in some instances, it is said, but the military is in absolute control at present. Rumors relative to the loss of lives are conflicting and are for the most part vague and conjectural.

(By the Associated Press)
CORK, Dec. 12.—More than three hundred buildings are said to have been destroyed in the fire which yesterday made waste of a great part of this city. Most of the fire has been extinguished but there is occasional sporadic outbursts of flame.

No Service at Christian Church Tonight
L. T. Walters announces that he is just in receipt of a telegram from Rev. J. E. Henshaw stating that Mr. Henshaw will not be able to reach Ada for his sermon at the Christian church tonight. He will be here tomorrow and will preach at the Christian church tomorrow night.

RED RIVER CASE BEFORE COURT AGAIN

(By the Associated Press)
WASHINGTON, Dec. 12.—The famous "Red River oil land case" was called for argument in supreme court today marking the passage of one more step in the original suit between the states of Oklahoma and Texas to determine which should hold title to valuable oil tracts lying along their common boundary. Attorney General Freeling, of Oklahoma presented the briefs of that state.

Confers With President.
WASHINGTON, Dec. 11.—Acting Secretary Davis of the state department had a conference with President Wilson today at the white house. No announcement was made, but it was reported that the disagreement with the five great powers regarding disposition of former German cables was one of the subjects discussed.

Ada Bulletin Pulls Thriller Saw Hunted Woman Pass in Airplane

Another sensation in the checker-board search for Clara Smith has been sprung in Ada. The woman wanted in connection with the killing of Jake Hamon, millionaire oil man and politician of Ardmore, was seen to pass over Ada Monday morning in an airplane by the editor of the Ada Bulletin, a supplement to the Pontotoc County Farmer. His facile pen tells of the remarkable incident in a front page thriller captioned "The Truth About Clara Smith."

Here it is—read it for your self: "We have been asked why we do not say something about Clara Smith, the much-advertised and much wanted woman supposed to know something about the death of Jake Hamon. In reply to these questions we will admit that we know where Clara Smith is; we have known for several days. We are waiting until the rewards for her capture have grown to attractive size before turning her in. The fact of the matter is that Clara passed over Ada in an airplane early Monday morning. "We had just arose from our downy couch and were going out to the hen house to see, perchance if there might be an egg or two in the nests, when we heard the whirr of a plane and, glancing up saw Clara's beautiful face peering over the side of the craft. It seemed sad and careworn as though she were worrying about something. Seeing she was recognized, she hastily wrote a note and dropped it. The note stated that she was headed for Labrador where she would enter a convent. "We do not care to divulge further details concerning the matter at

PRESIDENT WILL HELP EUROPE'S NEEDY CHILDREN

Says Ten Dollar Contribution
Would Save Life
of One Child.

(By the Associated Press)
WASHINGTON, Dec. 12.—President Wilson today called upon his "fellow countrymen" to contribute funds to save three and a half million children who are "facing starvation in Central Europe." The president announced that he would adopt 20 of these children as his temporary wards and said that \$10 contributed through the European relief council would save the life of one child. "Three and a half million children are facing starvation in Central Europe," said the president's statement. "It is estimated that they can be aided over until the next harvest by money and services equivalent to \$30 per child. The countries involved can furnish two-thirds of this cost, but for the other one-third they must look abroad and they are looking to us."

KANSAS TOWN SHOOK BY BLAST

Several Men Killed and Injured
and Much Property
Destroyed in Pittsburg.

(By the Associated Press)
PITTSBURG, Dec. 12.—About one thousand kegs of powder blew up at the Atlas Powder Company's plant three miles south of here shortly after nine o'clock this morning. Henry Alliet, an employ was killed outright and Charles Lance, another workman, was probably fatally burned.

First reports indicated that a dozen or more men had been killed the explosion having destroyed telephone connection between Pittsburg and the powder plant. Ambulances and doctors were rushed to the scene.

MUSKOGEE POLICE AFTER CRIMINALS

(By the Associated Press)
MUSKOGEE, Dec. 12.—The police today spread their dragnets to round up the gang of criminals which have been active here in the last week, committing numerous holdups and burglaries. Ten persons were taken into custody on vagrancy charges, pending further investigation.

Prizes Awarded Normal Girls by Sauer Milling Co.

A contest in quick breads was held this morning and was participated in by members of the class in food and cookery No. 2. This contest was a demonstration of the girls' work in the making of muffins and biscuits. Mrs. Duvall, county demonstration agent, acted as judge. Those who received prizes, were as follows: Biscuits, Jennie Lou Rodgers, first; Grace McKeel, second; Loal Russell, third; Corinne Moore, fourth. Muffins, Kathleen Smith, first; Beatrice Bry, second; Esther Main, third and Nora Lee Villines, fourth. Those who visited the display room were pleased with the good showing that the girls made and the work would be a credit to much more experienced cooks.

THE WEATHER

Partly cloudy tonight. Colder in east, and southern portion. Tuesday probably fair.

A FINAL APPEAL

Those who wish to be represented in the advertising section of the big special Christmas edition of the Evening News and the Weekly News should get their copy in shape and turn it in not later than Tuesday noon for the Weekly and Wednesday noon for the Evening News, as no advertisements will be accepted for these two editions later than that time.

Solicitors have been busy gathering material for these special editions during the past week and many beautiful displays are being arranged to make the papers attractive and enjoyable. Those who fail to be represented will miss the opportunity of going before the ten thousand readers of the two papers in the most appreciable editions of the entire year.

The Christmas edition will appear in the Weekly News on Thursday, December 16th, and in the Evening News on Monday, December 20th.

If you have been overlooked by the News solicitors the oversight was not intentional for it is desired that every business man in the city who has a message of good cheer for his patrons may be represented.

Gambling Played By Evangelist In Big Sunday Meeting for Men

Speaking to an audience of men and boys Sunday afternoon at the McSwain theater on the subject "The man with a purpose," Evangelist Mike Cassidy delivered what was possibly the most scathing denunciation of gambling, "cussing," dancing and immorality that was ever heard in the city of Ada.

This special meeting was held as a part of the regular revival services now in progress at the First Methodist church under the leadership of Rev. Cassidy. The theater was nearly filled to capacity, and for more than an hour the speaker held the absolute attention of his hearers.

"I love to find a man with a purpose; I love to see a man that will live a clean life in spite of all the evils in hell," said Rev. Cassidy in launching out on his sermon for the afternoon. "I am glad to see such a large gathering of men and boys here today—I feel complimented, and, as I am a brother townsman, I'll assure you that you are in safe hands."

The subject of "cussing" first took the attention of the evangelist and in no uncertain terms did he condemn this inexcusable habit. In illustrating that there was no excuse for swearing Rev. Cassidy asked the audience to imagine three men in polite society—one of these men a drinker, one a smoker and the other a cusser. One man excuses himself and says he

must go outdoors and drink, the other says he must smoke, while the third man, the cusser, begs pardon of the company and remarks that he has to go out on the porch and cuss awhile.

"A man may have some provocation for planning how to take advantage of her why don't you be a big brother to her and try to save her from the cultures of hell who would ruin her character?" he said. "When you see a girl on the street who looks 'easy' instead of planning how to take advantage of her why don't you be a big brother to her and try to save her from the cultures of hell who would ruin her character?"

The audience was so thoroughly pleased with the meeting that several non-churchmen were heard to suggest that all the churches in Ada should unite in holding a 3 o'clock service every Sunday afternoon at the McSwain theater.

In closing, Evangelist Cassidy publicly thanked Foster McSwain, owner of the new McSwain theater, for the privilege of using the building for the afternoon's meeting, and said the town should be proud of such a fine theater.

Rev. Cassidy preached Sunday night at the Methodist church on the subject of "Man's moral fitness for Heaven," and the attendance at this service was by far the largest of any previous meeting of the entire revival. At the closing hour a number of young girls were taken into the church—two by letter and the others by baptism.

The subject of tonight's sermon will be "What must I do to be saved?"

ANOTHER DROP IN SUGAR PRICES

One Refinery Lowers Price
To 8 1/4c a Pound Is
Report.

(By the Associated Press)
NEW YORK, Dec. 12.—New low record prices were established for refined sugar here today. The federal sugar refining company reduced its list price another half cent to the basis of eight and one-fourth cents a pound. Other refiners who have maintained their list price of nine cents, reduced their quotations to eight and three-fourths cents.

1920-1921

December, and then the New Year. We have almost reached the crest; soon the realities of a new year with its responsibilities and opportunities will be before us.

Nineteen hundred twenty is fast receding in the west. Before most of us are aware, it will have gone to rest with the hundreds which have been its predecessors. If 1920 has meant to us naught of gain let us remember that the new year is nineteen twenty-one. The New Year bids us grasp our tasks with renewed courage and determination, trusting that all may be enabled at its close to proclaim that success has been ours—that we have labored and that we have won.

WOULD EMBARGO FOREIGN PRODUCTS

North Dakota Man Introduces Bill To Exclude Foreign Products.

(By the Associated Press)
WASHINGTON, Dec. 12.—An embargo for one year against importation of wheat, flour, barley, rye, oats, flax, wool, hogs, cattle and sheep is proposed in a bill introduced today by Representative Young, republican of North Dakota. He also introduced a bill establishing permanent schedule of import duties upon these items after the one-year embargo.

CAR WRECK FATAL TO MANY PERSONS AT KANSAS CITY

Five Killed, Twenty-Eight
Injured in Street Car
Accident.

(By the Associated Press)
KANSAS CITY, Dec. 12.—With five persons dead and twenty-eight injured severely, possibly fatally, the authorities today turned their attention toward ascertaining the cause of the wreck here last night in which a motorman lost control of his street car as it raced down a steep grade, rolled over and was demolished.

The motorman, C. E. Ferguson, 24 years old, was under police guard at a hospital at the direction of the coroner's officers. He was ordered held immediately after the wreck but officers who went to the hospital to take him into custody found that he was too severely wounded to be moved.

According to Ferguson the air brakes on the car, a vehicle of the one man operator type, failed to work.

SHAMROCK BANK ROBBED SUNDAY

Safety Deposit Boxes Are
Looted and Thousands
of Dollars Taken.

(By the Associated Press)
MUSKOGEE, Dec. 12.—Twenty-four deposit boxes, many containing liberty bonds and private papers of unknown value were stolen in the robbery of the First State Bank of Shamrock, Sunday, according to a report made to the local police. Ten-dollar bills to the amount of fifteen hundred dollars and \$13,020 in pennies, dimes, quarters and half dollars and pay checks of four oil companies also were taken, the report states.

RAIN AND SNOW ALL OVER KANSAS

(By the Associated Press)
TOPEKA, Kan., Dec. 12.—Rain or snow in varying amount has fallen in every point in Kansas in the last 24 hours, according to the local weather bureau.

HARDING AND ROOT CONFER ON LEAGUE PACT

President-Elect Calls on the
Former Secretary of
State for Advice.

(By the Associated Press)
MARION, Dec. 12.—Advice on the plans for an association of nations was sought by President-elect Harding today from Elihu Root, former secretary of state and more recently a conferee with leading European statesmen in the formation of a world court under the Versailles league covenant.

The conference, regarded as one of the most important to be held by Mr. Harding in his "meeting of minds" here, he and the president-elect were concerned chiefly the question of how far the machinery of the present league may be used in building a world's peace conference acceptable to the United States.

Throughout the league fight Mr. Root advocated acceptance of the Versailles covenant with reservations and during his world court conference abroad he expressed much faith in some portions of the covenant. Details of his talk with Harding today were not revealed, both he and the president-elect saying his recommendations were entirely confidential.

In asking Root's advice Harding is understood to have sought particular information about the practical working of the league as observed by the secretary of state during his visit in Europe.

The visit of Mr. Root again brought his name into prominence in gossip about the cabinet selection of the incoming administration.

The reason the Irish question is hard to understand is because everybody hesitates to admit that it is largely a religious question.

Still, the league wouldn't bind America to guarantee the financial integrity of member nations.

INDIAN IS KILLED IN GAMBLING ROW

(By the Associated Press)
MCLESTER, Dec. 12.—Frank Lewis, an Indian farmer from TI was shot and killed at Hartshorne Saturday night. An argument over a gambling game is said to have caused the killing. M. C. Metcalf, a miner of Hartshorne and his son, are being sought by the local police in connection with the affair. It is alleged that the men were intoxicated.

(By the Associated Press)
WASHINGTON, Dec. 12.—The Johnson emigration bill, as today by the house. It now goes to the senate where its defeat is predicted by senate leaders.

These Last Days Will Tell The Winner

The second period of the Ada News salesmanship club campaign will close Monday evening, December 20th, at 8 o'clock. At present no candidates have polled very far ahead, and none of the leader class are polling far behind. It's still ANYONE'S race for the \$1,785 Essex touring car which will be given as the grand capital prize.

The campaign will close Thursday evening, December 23rd, at 7:30 o'clock. You must do your work during the week and a half which remain and make yourself the undisputed "champion vote getter" of the list. There is still much to be won or lost. There is still time for those in the lead to be overthrown; for those far behind to achieve the lead. There is still time for you to WIN or LOSE. Don't slow up for a moment. To do so probably means defeat. Work harder than ever—better than ever.

This week we will show standings in the paper every evening—and Monday evening, December 20th, after the close of the second period, the count of all polled credits will be made. These will appear in Tuesday's paper. The ballot box will then be sealed and placed in the Merchants and Planters' bank where all ballots must be polled after Tuesday noon. The manager of the campaign department will not receive any reports after Monday evening. Simply enclose your job card stubs or subscription slips accompanied by the money for the same (either in currency or certified check if over

\$5) in an envelope and drop it in the ballot box in the bank.

But do not forget that the credits are sharply declined again at the end of the second period and that there will be absolutely no extra coupons appearing in the paper during the rest of the campaign. So get in every available subscription THIS WEEK and poll it while it counts the most in the schedule of credits in the News campaign. Then the advisory board will count the credits the night of the 23rd and add to their count the ballots found in the box, all credits as published in the last standings given in the paper, and thus will be established by the total number of credits accrued the standing of the various contestants. To the candidate having the greatest number of credits through the sale of subscriptions or job cards or printed coupons, or of the accumulation of all avenues of credit getting, will be awarded the first grand capital prize—a \$1,785 Essex touring car purchased for the campaign from the F. O. Ford garage. The other prizes will be awarded in the order they have been assigned and the commissions will be paid to all active non-prize winners.

The advisory board, who act as the official counters on the night of December 23rd, are given below, having been appointed in the beginning of the campaign and are as follows: M. R. Chilcutt, "Bill" Coffman, Dr. A. Linchard, Wayne Wadlington, Oral Busby, Ben Scheinberg, M. O. Mathews.

He that hasteth to be rich hath an evil eye, and considereth not that poverty shall come upon him.—Prov. 28:22.

PHYSICIAN, HEAL THY SELF.

While the world is running wild and the nations of the earth are giving a fair imitation of swarming bees, let's not get too far from the good old doctrine that every man is the architect of his own fortune. Let us not forget that saving the world and reforming the world is largely a matter of saving and reforming ourselves. We have been getting quite a little way from this sober fact for the past 20 years and it is now high time that we get back a little and touch our base.

We are learning too much to depend on the government for everything we want and for everything we think we need. When prices get too high we urge the government to curb profiteers. When the bottom falls out of prices and business begins to stagnate we begin to call on the government for salvation. When crops are bad and we have little to sell we appeal to the government for remedial legislation. When crops are good and we have more stuff than we can sell we straightway appeal to the government for better markets.

The government can help in a good many ways and could help more than it ever has been disposed to do, but let us not forget that we ourselves are the government. The people of the United States constitute the government of the United States. In the abstract any plan for the government to help the people is just a plan for the people to help themselves. It simply means taking money out of one pocket and slipping it around into another pocket. That's a mighty unsatisfactory way of getting rich.

Let us not forget that after all there are very few things the government can do for us in an economic way. More than 90 per cent of our economic ailments are beyond the reach of legislative remedy. They are individual ills and must be cured or endured in an individual way. If we ever get any help, we have got to get it for ourselves. If we have been spending money like drunken sailors, let's reduce expenditures. If we have been buying a lot of stuff we didn't need, let's quit it. If we have been working only half the time and joyriding the other half, let's cut out joyriding and go to work full time. If we have been producing something we can't sell and can't use, let's produce something we can use or sell.

At all events let's take a look at ourselves and see what is hurting us. Then let's get busy and see if we can't help ourselves without calling on any man or any neighbor or any government. If we only do all we are able individually to do, there won't be much left for the government to do.

We never have believed that Senator Harding is an extraordinary statesman and so far as we have noticed none of his warmest friends have claimed preeminent merit for the man from Marion. But since his election he has shown unmistakable signs of being a normal human being, and that in some respects is better than a display of unusual brain power. His recent appearance in the senate, his mixing with his fellow senators on the plain of perfect equality, his willingness to meet his fellows face to face, show that Senator Harding is a plain, sensible, everyday kind of American. Thus far he has displayed no disposition to regard himself as a fit subject for isolation. He has not yet tried to shut himself off from the world of men, but on the contrary has shown that he still considers himself one of the rank and file of American citizens. He is to be commended and commended heartily for his evident view of things. He may not be an exceptionally great statesman but he is a first class human being.

When writing of Christmas this year try to avoid abbreviating the name. It is becoming altogether too common to refer to the world's greatest festival as "Xmas." It would hardly be more irreverent to refer to "J. X." when mentioning Jesus Christ. If there is one man on earth that we should never take liberties with, it is that of the Nazarene, and it is almost as unbecoming to take liberties with the name of what is supposed to be his natal day. If you cannot write Christmas out in full, pray do not write it at all.

It is estimated that during the past 12 months there have been 1,000,000 marriages in the United States. It is also estimated that during the same 12 months only 700,000 houses have been built. The difference in these figures should be taken up and duly considered by the organization that is promising to have introduced in the Oklahoma legislature a law reducing the number of divorces and making marriages stick.

Holdenville is rapidly putting on metropolitan airs. In addition to her new courthouse, her big gas wells, her live commercial club, and her railway advantages, she has emulated Oklahoma City and Tulsa by pulling off a first class lynching. But Ada is the only city of Oklahoma that ever lynched four at a time.

Pekin Ducks. White Pekin ducks were imported from China in the early seventies, it is claimed. They have been highly regarded in many communities. For raising on a large scale they are especially popular. The Pekin is a large duck, some weighing as much as 10 pounds. The flesh of these birds is said to be very fine, it being considered the best of the duck kinds. The ducks are good layers and non-sitters and no special skill is required to raise them. The Pekin differs from other ducks in shape and carriage of the body. It has a long, finely formed head, neatly curved neck and a bill of orange yellow. The wings are short and folded close to the body and not capable of sustaining flight. It is said that fence two feet tall will restrain them. The standard weight of the duck is eight pounds, the duck seven.

Mrs. L. A. Trudeau

Mrs. Trudeau is the daughter of Attorney and Mrs. R. C. Roland, well known residents of Ada, and has lived here most of her life. She has been very conscientious in her work from the beginning and was for a time leading in the race for credits. Owing to a serious accident to her little two-year-old son, Lawrence Robert, her progress was seriously impeded. But she has many friends who are anxious to see her a large winner on the 23rd, and their support just now will count for much.

Till on thine idle armor lie the late
And heavy dews. The morn's scorn-
ful eye
Reminds thee; then, in subtle mock-
ery,
Thou smilest at the window where
I wait
That bade thee ride for life. In
empty state
My days go on, and false hours
prophesy
Thy quick return. At least, in sad
despair,
I cease to bid thee, leave thee free
as air;
When lo, thou stand'st before me
glad and fleet
And lay'st undreamed-of treasures
at my feet.
Ah! messenger, thy royal blood to
buy
I am too poor. Thou art the king,
not I.

TO REDUCE COTTON ACREAGE ONE-HALF

MEMPHIS, Tenn., Dec. 7.—Measures to make effective a 5 per cent reduction in the acreage planted in cotton and similar increase in the acreage devoted to food crops and livestock raising were under consideration at a meeting here today of representatives of banking, commercial and farming interests in all the southern states.

Leaders in the movement declare that action to be taken at the meeting will insure a cut of at least one-half in cotton acreage next year which they declare imperative as a means of stabilizing the market and to restore the price of the staple to a figure that will give the farmer a reasonable return for the 1921 crop.

Governor John M. Parker, of Louisiana, W. B. Thompson of New Orleans, Gerald Fitzgerald of Clarksdale, Miss., and J. S. Wannamaker, president of the American Cotton Association, were among those who were to address the convention today. Committees were named at today's session to effect a plan of campaign and report at the final session of the convention tomorrow.

Farmer, Banker's Real Asset.

A new day has dawned for the banker in the agricultural section. After some agitation and discussion he comes to realize that his real asset is the farmer who is near him. As one Texas banker put it recently, the farm is the safest loan on earth and the farmer is next. A farmer will work his nails off to meet his interest payments, while some others will take advantage of the bankruptcy laws and let the banker hold the sack. A better day for both the banker and the farmer is here, if the true relationship is felt. Agriculture is the basic industry and the banks that underwrite that industry underwrite the prosperity of the country. The new attitude of the banker toward the farmer is noticeable in every section of the country where you will find bankers taking a hand in the formation of livestock and better farming associations of all kinds. In practically every case you hear the banker admit, too, that it pays him big to help make the farmer more prosperous. The more dollars the farmer has the more dollars has the banker in his deposits. It is a reciprocal relationship, the relationship of the banker and the farmer.—Farm and Ranch.

In The Oil Fields

The Doan company spudded in on their deep test well at 20-5-4 Tuesday, and are now drilling at 100 feet and putting in 15 inch casing.

This is one of the strong companies and the several thousand acres held by them in that locality will be thoroughly tested out. C. A. Giffin, who has been in this city for seven months, is at the head of the land department and made the location for the company, and J. M. Myer is the drilling superintendent.

Westheimer, Iowa Oil and Refining company drilling in blue shale at 1585 feet in SW 26-5-7. This is one of the strong companies, and the well is to be a deep test. The same company went 3460 feet in the dry well in 12-3-7 twelve miles east of Ada last year.

A. J. Walker, vice president of the company, has charge of the drilling. Under his direction the old gas well in 34-5-7 known as the Freneda well, has been cleaned out and sufficient gas is coming from that well to supply all lease purposes.

Carter, Nance, LaSalle underreaming at 1065 feet to shut off water. 6-inch casing placed at 1010 feet. Drilling will continue to the next sand as soon as water is under control, and the syndicate is able financially to go any depth.

Signal Hill Oil company shut down for funds at 2400 feet in 36-5-2. It is understood that a very attractive offer has been made to any one who will finish the test.

Montrose Oil & Refining company report six million feet of gas struck Wednesday in NW of NE in 20-5-8 at approximately 1000 feet. The gas has been shut off and drilling is in progress.

Harvey Crude Oil company skidding rig to abandon account bad hole at 430 feet in 17-4-4. New location not announced.

Morrison Bros. et al hearing the first oil sand at 26-5-8, and expect to drill in soon.

Kingwood, Kelette, et al, drilling in blue shale at approximately 1600 feet in 36-5-6.

Smith & Lee pumping three wells in 3-4-7, producing about 15 barrels each a day.

The Transcontinental Oil company is moving material to its location in SW of EW 12-5-5. The Transcontinental is one of the large companies and a thorough test is to be made of their holdings.

Radeo State Oil company has a derrick up at 1-5-3, and drilling will start immediately.

Max Westheimer of Ardmore, was here Saturday. Max is one of the largest independent operators in the state. He expects to see Ada the center of a large producing field some day and when that time comes it will be the result of the hard work and large expenditures of money by men of the Westheimer calibre.

G. W. Abbott of Sioux Falls, N. D., is here greeting old friends and looking after personal interests. Mr. Abbott owns several hundred acres of oil land in this locality by lease and in fee, and has already done a great deal toward bringing development here.

J. F. Walls spent Sunday night and Monday in this city. Mr. Walls is connected with John E. Smith of Roff in the oil business.

C. J. Skirvin and C. H. Blasel both of Oklahoma City arrived in this city Sunday night for a few days hunt in this locality. Both of these gentlemen are well known to the oil fraternity. Mr. Skirvin is a brother to Bill Skirvin, president of the American Oil & Refining Co.

Twenty wells are now being drilled in Pontotoc county, and several other locations will be made in the near future. Oil men are of the opinion that this county will some

MARTYR'S WIDOW TELLS OF IRELAND'S CAUSE

WASHINGTON, Dec. 9.—The life story of the late Terence MacSwiney, Lord Mayor of Cork, who died as a result of a hunger strike while in Brixton jail, London, was told today by his widow to the commission of the Committee of One Hundred investigating the Irish question. Mrs. MacSwiney's account of numerous arrests of her husband, his efforts on behalf of a free Irish nation and the action of the British government in attempting to "throttle" Irish development were punctuated alternately by applause and sobs.

Mrs. MacSwiney told of her marriage to the late Lord Mayor in England in 1907, just after her husband had been released from one of the many prison terms. She related how their only baby was born while its father was in jail in Belfast and how she daily carried the child to visit the father in prison.

METHODISTS TO OPEN COLLEGE SOON AT TULSA

TULSA, Dec. 10.—The Methodist school to be erected here, chosen as the site by the recent convention of the Methodist conference held at Ardmore, will probably be opened as a college and later become a university, the Rev. L. S. Barton, pastor of the local demonstration church, said in an address before a luncheon here last week. Members of the college location committee will meet in Tulsa this week, he said, when the 80-acre tract promised by the chamber of commerce will be turned over. Application for a charter will be made immediately afterward, Doctor Barton said.

With other members of the board and Bishop Edward Mounzon of the diocese, Doctor Barton stated

Milk—hours fresh, not days old

Aren't there a good many times when you wish that you could get an abundance of milk with all its country freshness and flavor? Klim, milk in powdered form, is old-fashioned milk. Klim has put rich, fresh milk within your reach.

Klim—pure, rich, fresh powdered milk—takes away all your milk worries. You don't have to wait for uncertain milk deliveries. You have no waste through souring. Klim will keep months without ice. It never freezes.

Spell it backwards

KLIM
BRAND
POWDERED MILK

Nothing is added to make Klim. Nothing is taken away but water. Replace the water and instantly it becomes liquid milk again—hours fresh, not days old.

Keep a supply on your pantry shelf. Use Klim Powdered Whole Milk (Full Cream) for drinking, for the children, for cereals, for coffee; cook with Klim Powdered Skimmed Milk.

Eminent physicians and leading food authorities endorse Klim. Many hospitals are using Klim, as are many schools. Ask your physician about Klim.

There are many advantages in using Klim. The moment you start to use it, you will realize just how much it means to you. Don't wait; go today to the nearest dealer and get a supply sufficient to meet your family needs.

FARMERS AND TRADE BOARDS TO CO-OPERATE

ST. LOUIS, Mo., Dec. 3.—Organizations of farmers in Missouri, Kansas, Nebraska and Oklahoma have agreed to work concertedly in dealing with boards of trade and livestock exchanges in the four states, William H. Hirth of Columbia, Mo., announced today. Mr. Hirth was here attending the two day's meeting of directors of the Missouri Farmers' association which concluded last night. This action was necessitated to guarantee the farmers a reasonable profit, he said. The farmers in the four states, Mr. Hirth explained, probably will withhold their products from market until higher prices are paid for them.

At the conference of the directors of the Missouri organization the farmers were advised to curtail production to minimize their losses.

Knox News Notes.
It is cloudy today and the wind is blowing real cold.

Mrs. Harriott Burnett is here visiting her old friend, Mrs. Hampton.

Mrs. Bishop of Fitzhugh is visiting her sister, Mrs. Walker, this week.

There is plenty of cotton in the fields yet and it is thought that it will be several days after the new year before the crop is entirely gathered.

Mrs. W. L. Nettles has sold quite a number of her hogs and will deliver them in a few days.

Mr. Phillips, the man who was crushed by a tractor on the farm of R. W. Allen a few days ago, is reported to be improving and getting along nicely.

Well, the farmers' union local is 30 strong here at Knox. It looks to us like Pontotoc county is fast being organized.

Say, what has become of the farmers' league that was organized at Fitzhugh some time ago?

Mr. Rigby's daughter, who has been confined to her bed for the last 10 months, has needed his care, thus preventing him from gathering his crop.

Clyde and Cleve Rigby visited Colleen Hampton over Sunday.

The farmers are having a hard time picking cotton this season.

The farmers' union local has donated to Tal Rigby a day's corn gathering and succeeded in getting his corn all in the bins, and beginning with Monday members of the union and neighbors will pick cotton for him free gratis until his crop is gathered. This shows the neighborly spirit of this community.

The cold weather is checking cotton picking to a great extent.

Mr. and Mrs. Floyd McCloud, son-in-law and daughter to Mrs. J. C. Smith, came in from Texas Saturday.

Hog killing time has come again and the farmers are taking advantage of it to store up their meat for the winter.

The boys of the Knox neighborhood spend much time hunting wild animals. So many have been caught this season that the varmints are very scarce.

The quails have been having a hard time the past few days. The hunters have been making it hard for them in this neighborhood.

MONKEY'S GLAND MAY SAVE 'DUNGEON GIRL'

CHICAGO, Dec. 9. — Surgeons who grafted the thyroid gland of a monkey into the neck of Mary Zemebeck, 19-year-old "dungeon girl," rushed today to predict success for the endeavor to alleviate her arrested development, but said they were strongly hopeful.

The girl was hidden by her parents at Joliet, Ill., in a cellar from babyhood until a few months ago and had the body and mentality of a child 4 years old, physicians declared when she was found.

BOYS LEAVE HOME; ARE CAUGHT HERE

Three Runaway Boys Taken Into Custody by Ada Officers.

Three boys, giving their names and addresses as Jack Carsons, Walter Carpinis and Jack Conger of Denison, Texas, were taken up by the night policemen here Saturday night and brought before the mayor for investigation. The boys on being cross questioned were made to admit that they had given false names and addresses.

The first two of the above mentioned boys were from Bristow and were going to Denison with Jack Conger who lives at that place, when they were caught. The names of the boys are Orion Masters and Charlie Davis, respectively, and they had run away from their home at Bristow to seek their fortunes in the south.

Jack Conger when questioned admitted that his home was in Denison and that he had come to Bristow where he was joined by the other two boys. He said that his father was a worthless, shiftless man, who drank, gambled and made life miserable for him. He also said that he had a grandfather in Jefferson, Ga., whose name was Dave Archer and that he would like to go there to live very much. He is in the custody of Mayor Kitchens, who is taking care of him while his relatives are being notified of his whereabouts. The police of Denison are searching for the boy's father and the boy will be held here until they are found.

Mr. Masters, father of one of the Bristow boys, was notified by phone to come after his boy and he arrived here last night. They returned to that place this morning, thus ending the career of the two wandering boys.

The boys, after making a clean breast of their identity and purposes, told of their hardships on the journey from that city to this place. They rode in box cars, walked much of the way, caught rides in automobiles, slept out on the ground and in box cars, and in many other ways suffered for their foolishness. Mayor Kitchens stated this morning that he would keep the Conger boy here until his people sent for him and would see that he was taken good care of. The boy had only some dirty clothes which he has worn for many days.

LITHUANIA NOT YET ADMITTED AS LEAGUE MEMBER

(By the Associated Press)
GENEVA, Dec. 11.—Lithuania, it was decided by the commission on the admission of new states yesterday, will not be made a member of the League of Nations during the present assembly, but will be granted the privilege of participating in the work of technical commission, which privilege also is to be extended to Armenia, Albania and Georgia.

This decision virtually completes the work of the commission.

Monkeys and Auto Storage Batteries

"Have you ever seen a money—the ordinary zoological garden specimen—examine into the mysteries of an automobile storage battery?" Wm. Emanuel of the W. M. Emanuel Battery Co., U.S. Service Station representative for this section asked a representative of this paper yesterday.

"The simian instinctively knows that what is going on inside that box is something stronger than a teapot tempest. Nevertheless he is all curiosity to find out, just how far he can go without exciting the furies inside."

"Monkey curiosity is a most interesting bit of monkey psychology to the average human. He will peer, and peek, and snoop, and get popt-eyed even over an every-day storage battery. He shows more than ordinary human qualities in this particular respect, for most humans who own their own batteries can learn a lot from this simple curiosity of the simian."

"The majority of motorists take it for granted that the little black box attached to the automobile is too all-fired complex for the layman to bother his head about. They know enough to keep the battery plates covered by adding distilled water to the electrolyte; beyond that the storage battery is an agitated chemical inferno to be tolerated but never bothered with except by a service station expert."

"These motorists are behind the times in their passiveness on the battery subject! They should measure up to the present and go in for a few fundamentals on the whys and wherefores of their batteries. They should know more about machine-pasted plates which will make them buzz longer with energy. Knowing these things they will not have their little black mystery boxes go dead at a time when they are miles away from a U.S. Service Station."

Church News

First Baptist Breaks All Records.
The First Baptist Sunday school on yesterday broke all past records for Sunday school attendance in Ada when they had present 618 people. The workers had for the previous week, put forth every effort to get six hundred present, and were rewarded by having more present than they had gone after.

The new Sunday school annex was completed and entered on yesterday by the juniors occupying the upstairs, and the beginners and primaries, the down stairs. There were 131 present in the junior department, 106 in the beginners and primaries, and down stairs. There were in the senior and adult departments, and 42 teachers and officers.

The intermediate department occupied the basement of the church and the senior and adult departments, the main auditorium. This arrangement will prevail each Sunday in the future.

It is the plan of the superintendents of the various departments to use curtains in the basement and in the main auditoriums to separate classes one from the other. This will aid materially in making for efficiency in the school.

The house was crowded at the preaching hours and there was one profession and one addition. The pastor spoke at both hours on the general subject of the need for evangelism in all departments of the church, emphasizing the importance of winning the lost to Jesus Christ.

It is hoped that every one who came yesterday will come again next Sunday and every Sunday following.

Teacher Training Class.

The teacher training class will meet this evening at 6:45. This hour is chosen because there will be preaching at the church this evening. Mr. Henshaw, of Newton, Kansas, will preach this evening, and all are requested to come out and hear him. The class will study the life of Joseph emphasizing those things that should be emphasized in teaching in Sunday school. It is hoped that every member of the class will be present.

STATE STILL LEADER

ON BROOM CORN CROP
Oklahoma maintained its status as the leading broom corn producing state of the nation for 1920, according to statistics compiled here by H. H. Schutz, federal crop reporter. Lindsay, in Garvin county, one of the seats of the big producing broom corn areas in the state, has already shipped out nearly 500 car loads of the product, his report shows, while Fairview and Carnegie, other important points, also show big shipments.

Compared with shipments a year ago, however, the number in carload lots has decreased, the corresponding period a year ago showing more than 1,000 carloads having been sent out. Prices range from \$50 to \$100 a ton, the report says, which indicates a loss to the producer, \$100 being a minimum at which a ton of the product can be harvested without profit.

Holland and Jugo-Slavia Break Off Diplomatic Relations.

(By the Associated Press)
THE HAGUE, Dec. 13.—Diplomatic relations between Holland and Jugo-Slavia have been broken off, it was stated here today. Holland has recalled her minister

from Belgrade and has dismissed the Serbian charge at the Hague.

The action was taken as the result of what the Dutch foreign office termed a "long series of insults to the Dutch government."

RETIRE AS HEAD OF VALLEY ASSOCIATION

CINCINNATI, Ohio, Dec. 6.—Col. John L. Vance will retire as president of the Ohio Valley Improvement association on January 1, next, after 25 years of service as the active head of the organization.

His successor will be Albert Bettinger of Cincinnati, who, like Colonel Vance, has many years been prominent in Ohio river and national waterways improvements.

Colonel Vance has been voted the position of honorary president of the association.
